

Timetable for Degree Completion*

This form is only to be completed by students who have already or will inevitably exceed the maximum time frame for degree completion (150% degree completion) prior to completing their degree. The timetable below should lay out the credit-bearing coursework you must take to complete your academic program by the end of the next winter quarter. If university policies or rotational course offerings require a student to take longer than the end of the next winter quarter to complete their remaining credit-bearing coursework, a longer timetable will be considered only if necessary.

** To clarify, this process does not mean you must finish your dissertation by a set time. It only aims to ensure you complete the credit-bearing courses within a set time. References to degree completion, graduation dates, etc. should be understood to be important only in the context of ensuring you will finish all courses that are not your 0-credit research terms by the end of next winter quarter.*
